CMK SDG Hackathon First Round Rubric

CATEGORY	5 – Excellent	4 – Strong	3 – Satisfactory	2 – Limited	1 – Needs Improvement	Score	Feedback / Comments
SDG (Topic) Relevance & Problem Clarity	Clear, compelling alignment with the selected SDG; the problem is specific, urgent, and well-researched.	Good alignment with the SDG; the problem is clearly defined.	Adequate SDG connection; the problem is stated but lacks detail	Weak or vague SDG link; problem definition is unclear.	Misaligned or missing SDG focus; problem not explained.		
Innovation & Creativity	The idea is highly original, impactful, and demonstrates creative problem-solving.	Shows originality with creative features or methods.	Reasonably innovative; some new aspects present.	Minimal creativity; the solution is conventional or expected.	No innovation; ideas are unoriginal or copied.		
Feasibility & Scalability	The implementation plan is realistic, cost-effective, and scalable to larger contexts.	Feasible in a specific setting with moderate scalability.	Possible to implement with adjustments; impact may be limited.	Feasibility is unclear, or the plan lacks detail.	Unworkable idea or lacks an implementation plan.		
Precision and understanding of the target community	Strong understanding of the community or users served; clear, measurable impact.	Addresses real needs with potential for meaningful impact.	General awareness of user needs and potential impact.	Limited user focus; impact is vague.	Unclear how it will benefit the target community.		
Pitch Deck Quality & Communication	Clear, concise, and visually appealing; ideas flow logically and professionally.	Well-organized and understandable; visually clean.	Basic organization; some clarity issues or design gaps.	Difficult to follow; weak visuals or poor structure.	Unclear, incomplete, or disorganized presentation.
